

AmplifyTeamwork collaboration as a service

Microsoft Teams and Zoom room systems with a monthly service

WHY

Today, more than ever, collaboration technology is at the forefront as organizations rely on it to stay connected and manage business operations from anywhere. Technology investment has changed. AmplifyTeamwork (collaboration as a service) provides you with a flexible way to implement the latest Microsoft or Zoom technology, without the need for capital expenditure. Whether you are working from home or as part of a re-entry back to the office, a high quality collaborative experience keeps us all connected.
