

## CUSTOM POWER AND CABLE MANAGEMENT

Red Thread is a full service electrical contractor with an experienced team of licensed electricians and registered apprentices experienced in custom power and cable management solutions. We have the people, the technology and the experience to service your organization. What differentiates us is our unique understanding of power and cable management and ability to utilize custom electrical devices that meet your specific requirements.

### Solution Includes:

**Power/Data/USB Unit Install**—Customizable table top units with power outlet, USB and data ports.

**Monitor Install**—Single or dual monitors.

**Under Table Cable Management**—Includes cable trough, cable wrap sheath, and under-mount power strip.

**Workstation Device Install**—PC, laptop, or tablet device.
