

Signature Teams Rooms

Transforming Meeting Experiences

RED THREAD

In today's evolving hybrid world, the demand for traditional conference rooms is diminishing. Signature Teams Rooms are revolutionizing these spaces into immersive and inclusive spaces that foster seamless connections between remote and in-room participants, **ensuring every voice is heard, and ideas can flow freely.**

Primary Design Objective & Intention

Remote Participants

Have a genuine presence in the meeting

All Participants

Meeting equity creates connectiveness and productivity

In- Room Participants

Individual identity is established for remote participants

Space Layout

- Curved table supports eye contact with remote colleagues
- Chairs face the display for maximum visibility and seamless engagement

Front-of-Room Displays & Microsoft Front Row

- Each participant appears individually for easy face-to-face interaction
- Chat, emojis and notes surround the meeting content to enhance collaboration and productivity

Audio and Camera Integration

- Spatial audio technology and an ultrawide-angle camera intelligently tracks meeting participants
- Each participant is represented equitably

Co-Creating Content

- Microsoft Whiteboard facilitates collaborative drawing and inking across various devices

Medium Signature Room

The Medium Signature Room creates an immersive meeting environment for leaders, executives and board members in presentation-style meetings. The Microsoft Surface Hub 2S can be added to facilitate more active collaboration.

- Microsoft Front Row technology offers spatial audio, face-to-face eye contact, and seamless content sharing
- Integrated Logitech sound bar and 21:9 aspect ratio wide-format display
- Steelcase ocular ARC 7 conference table supports eye contact between local and remote participants

Medium Signature Room featuring the Steelcase Ocular ARC 7 table at the Red Thread Boston WorkLife
