How do you select the right kind of divider?

Start by asking yourself these questions for each category:

- Are you adding to / modifying existing furniture?
- Does the individual space division happen beside the user, in front of the user, or both?
- What width and height?
- What material? Acrylic, fabric, metal, specialty?
- Permanent installation or temporary attachment?

Space

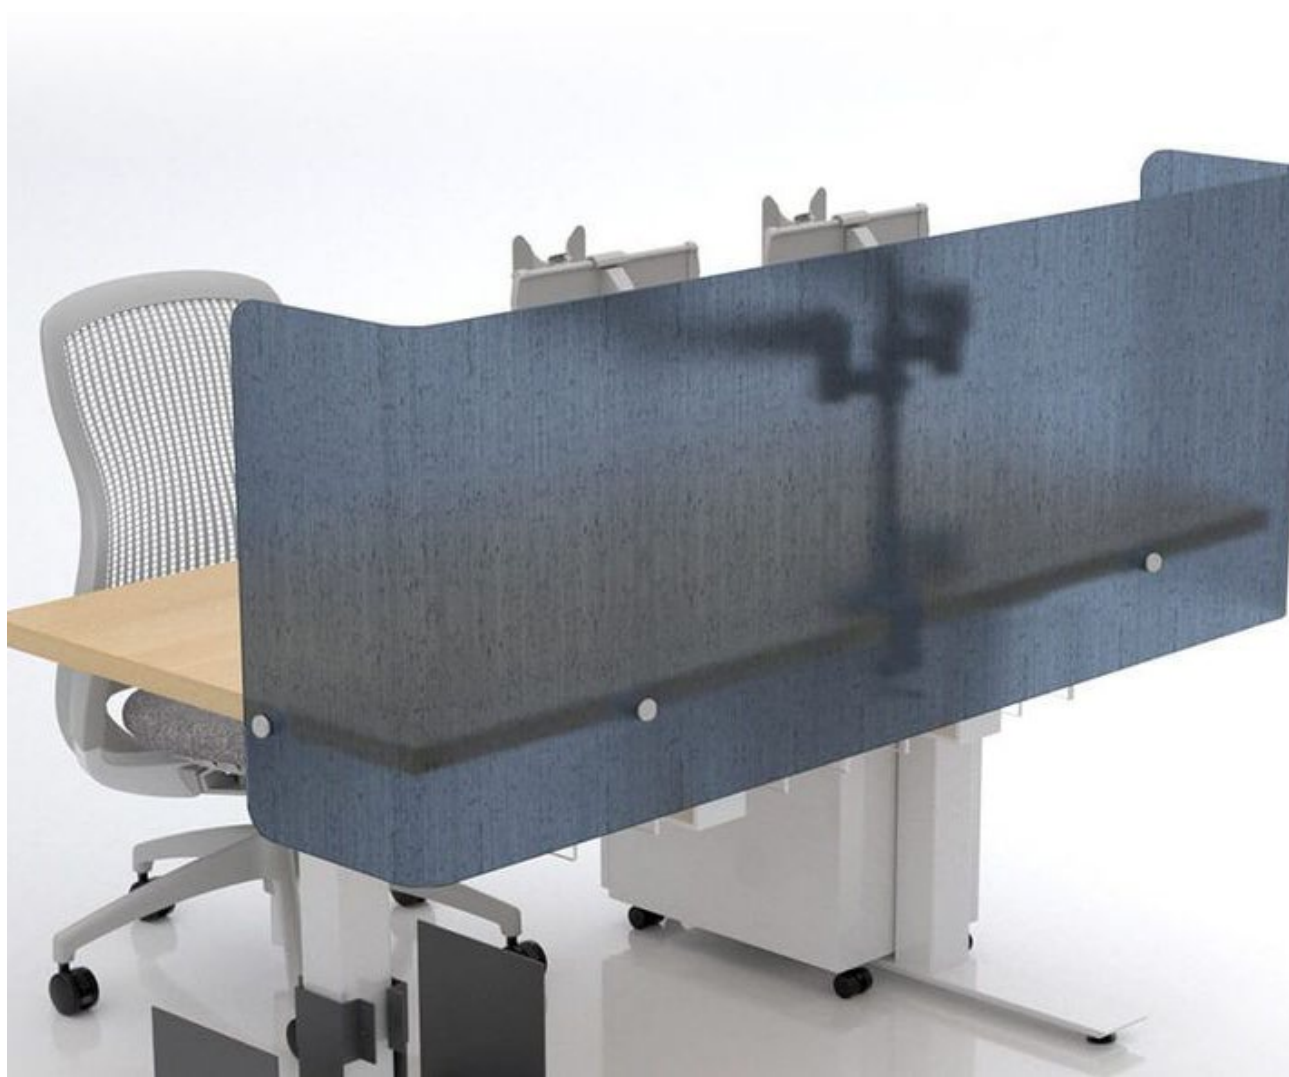

- Are you looking for a free standing unit or fixed partitions?
- Are you looking for a solid divider or perforated?
- What material? Acrylic, fabric, wood, metal, whiteboard, specialty?
- Do you want the space division to be mobile?

Reception

- Do you want to provide division on top of a reception station or in front of?
- Should the installation be permanent or freestanding?
- What material? Clear acrylic, etc.?
- Should the divider have a cutout to allow for voice transfer?
